[DATE]

Dear Professor [PROFESSOR LAST NAME],

I am writing to apply for a PhD position in your research group at [UNIVERSITY NAME], with a specific interest in your work on [SPECIFIC RESEARCH AREA / PAPER TITLE]. I hold an MS in Computer Networks & Security from the National University of Computer & Emerging Sciences (NUCES-FAST), Islamabad, where my thesis applied an ensemble of machine learning classifiers to real-time detection of low-rate DDoS attacks, and I bring over six years of professional experience building backend and cloud systems in the software industry.

I believe my combination of applied machine learning research and hands-on systems engineering experience would be a strong fit for your group, and I would welcome the opportunity to discuss a funded PhD position or research assistantship, should one be available.

For your review, I have attached the following documents:

- Curriculum Vitae
- Statement of Motivation
- Thesis paper (writing sample) — "Dynamic Allocation of Window Size for Detection of Low-Rate DDoS Attacks"
- MS Degree Certificate
- Reference Letters (3)

Thank you very much for considering my application. I look forward to the possibility of contributing to your research.

Sincerely,
Muhammad Umer Bilal
