To Whom It May Concern

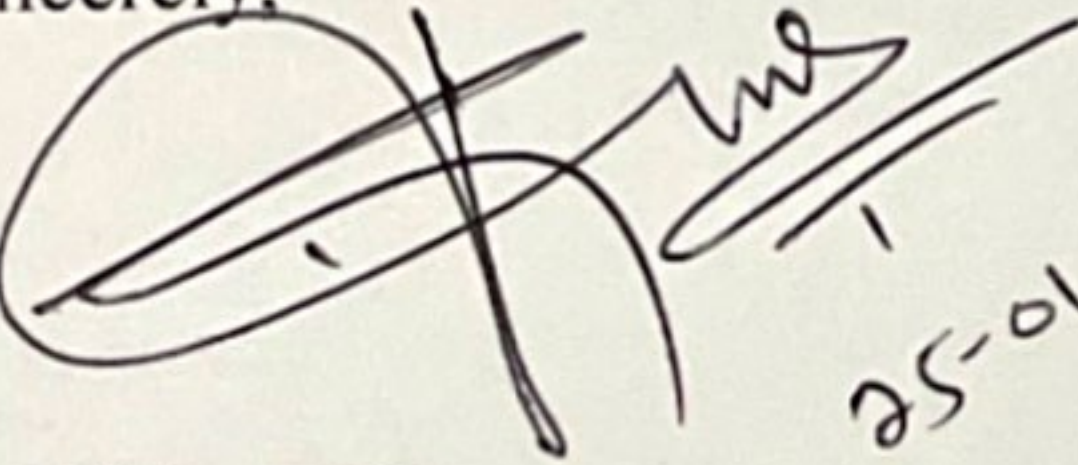

Reference: Muhammad Umer Bilal,

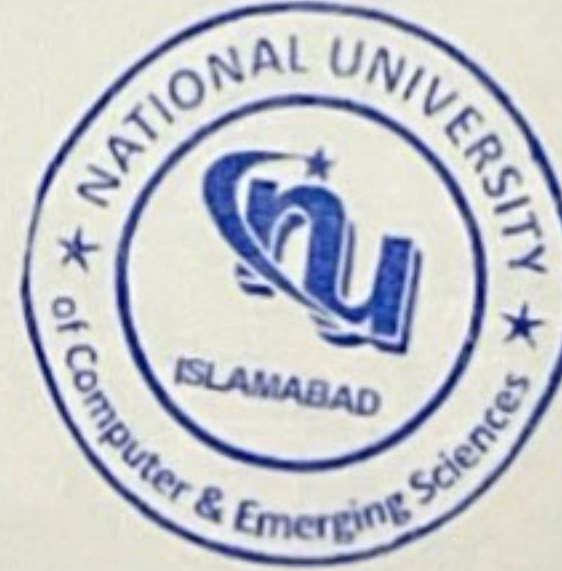

Muhammad Umer Bilal was a regular student of MS in the department of Computer Science at FAST, National University of Computer and Emerging Science, Islamabad. I was his teacher for the course "Advanced Computer Networks" in the semester of Fall-2021. Over the semester, I got to know Muhammad Umer Bilal as a talented, focused, and reliable student. During his course, he worked on different small projects and course related assignments. He performed very well in his quizzes, midterm, and final exams. His approach was very professional and goal-oriented, and I was impressed by his motivation and dedication towards the work assigned to him. He delivered all the assigned tasks on time. He participated in Speed programming and attending Computer Network and Security Seminar.

I would like to wish him all the best for his future professional and personal life.

I personally recommend him for this position, and I am more than happy to answer further requests on this matter.

Your sincerely,

25-01-2024

Subhan Ullah, Ph.D.
Assistant Professor,
Department of Computer Science,
FAST National University of Computer & Emerging Sciences,
Islamabad Campus, 3 A. K. Brohi Road,
Sector H-11/4, 44000, Islamabad, Pakistan.
