TO WHOM IT MAY CONCERN,

I am writing this letter of recommendation in support of Muhammad Umer Bilal, a former student of mine at the National University of Computer and Emerging Sciences (NUCES) in Islamabad. I had the pleasure of being Umer's instructor during the Fall-2021 semester, where he was enrolled in the MS Cyber Security program in the Department of Computer Science.

Throughout the semester, Umer demonstrated exceptional dedication, intelligence, and a strong work ethic. He enrolled in my course, "Applied Information Security," and consistently exhibited a deep understanding of the subject matter. Umer actively participated in class discussions, demonstrating his ability to analyse complex concepts and articulate his thoughts clearly.

I had the privilege of serving on the examination panel for Umer's thesis on low-rate Denial of Service (DoS) attacks. His research showcased a high level of technical expertise, critical thinking, and a genuine passion for research. Umer's commitment to his academic pursuits and his enthusiasm for research were evident throughout the entire process.

Beyond his academic achievements, I found Umer to be a reliable and focused individual. He approached challenges with a positive attitude and was always willing to go the extra mile to ensure the quality of his work.

I highly recommend Muhammad Umer Bilal without reservation and believe that he will be a tremendous asset to any academic program or institution.

Please feel free to contact me if you require any further information.

Kind regards,
Hina Binte Haq,
Lecturer,
FAST School of Computing, NUCES,
